“INTERNATIONAL CENTRE OF YOUTH COOPERATION”

YOUTH NGO

Evaluation letter

From the perspective of the sending organization, the “*Myths and Facts*” (MAF) Erasmus+ Youth Exchange was a highly impactful and well-implemented project that delivered strong results both at the individual and community levels.

The program was thoughtfully designed, combining interactive workshops, discussions, and non-formal learning methods that ensured active participation and meaningful engagement. Armenian participants particularly benefited from the focus on critical thinking and media literacy, developing the ability to better analyze information, challenge misinformation, and distinguish between myths and facts—skills that are increasingly essential in today’s information environment.

In parallel, the intercultural dimension of the exchange provided valuable exposure to diverse perspectives, helping participants strengthen their communication, teamwork, and adaptability while building lasting international connections. The project also contributed significantly to personal growth, boosting participants’ confidence, leadership, and willingness to step outside their comfort zones, especially among first-time participants. Importantly, the impact of the project extended beyond the mobility itself, as participants implemented follow-up activities in Armenia, sharing knowledge within their communities and promoting Erasmus+ opportunities, thus ensuring sustainability and multiplier effects.

The experience has clearly increased participants’ motivation to remain active in youth work and international cooperation. As a minor recommendation, allowing more time for deeper exploration of certain topics could further enhance learning outcomes. Overall, the project successfully fostered youth empowerment, intercultural dialogue, and the core values of the Erasmus+ programme in Armenia.
