

Subject: Evaluation Letter for the project *“Myths and Facts: Unveiling the Truth (MAF)”*
Pissouri, Cyprus – October 2025

Dear ACPELIA Team,

On behalf of Active Vitorazsko, we would like to express our sincere appreciation for the successful organization and implementation of the Erasmus+ Youth Exchange project *“Myths and Facts: Unveiling the Truth (MAF)”*, which took place in Pissouri, Cyprus, in October 2025.

From the preparation phase to the final days of the mobility, the project was carried out with a high level of professionalism, dedication, and attention to detail. The coordination and communication with partner organizations were clear and effective, ensuring that all participants were well-prepared and confident before their arrival.

The project offered a rich program based on non-formal education methodologies, including interactive workshops, group discussions, practical activities, and reflection sessions. These approaches created a safe and inclusive environment where participants felt encouraged to express themselves, share their ideas, and actively engage in the learning process.

Through the activities, participants significantly improved their intercultural competences, critical thinking skills, and ability to distinguish between myths and facts in today’s information-driven society. Furthermore, the project contributed to the development of emotional intelligence, communication skills, and teamwork.

The intercultural dimension of the exchange was particularly valuable. Participants had the opportunity to experience different cultures, traditions, and perspectives, both during structured sessions and informal moments such as cultural evenings and local visits. These experiences fostered mutual understanding, respect, and long-lasting friendships among the participants.

Our group greatly benefited from this experience. The participants described the project as inspiring and transformative, helping them broaden their horizons and gain new insights that will positively influence both their personal lives and future professional paths. After returning home, they remained motivated to share their knowledge and experiences within their local community through follow-up activities.

We highly appreciate the efforts of the ACPELIA team in creating a supportive, well-organized, and impactful learning environment. Projects like this play a crucial role in empowering young people and strengthening their active participation in society.

We look forward to future cooperation and to participating in more initiatives that promote youth development, intercultural dialogue, and active citizenship.

Thank you once again for this valuable experience.

Kind regards,

Active Vitorazsko z.s
